Canadians are savvy consumers of everything - except financial products. We comparison shop for new cars and new clothes, but when it comes to our money, most of us passively hand it over to banks and other institutions. The result? This book is the remedy: written especially for Canadians, it is the definitive guide to getting the best possible deal on everything from savings accounts to mortgages to RRSPs. Rob Carrick puts the key information in the reader's hands through comparison charts, rankings and easy-to-follow tables, as well as good old-fashioned advice. He explains how to construct a banking profile, where to find the best bargains in financial services, how online banking and investing is changing everything, and much more. This book shows how to get the best while paying the least, so you can use your money for the things you really want and need.**
