Father Christmas's Fake Beard Jun 23 2019 Have you ever wanted Christmas to be different? Turkey and carols, presents and crackers - they all start to feel a bit . . . samey. How about a huge exploding mince pie, a pet abominable snowman, or a very helpful partridge in a pear tree? What if Father Christmas went to work at a zoo, or caused chaos in a toy store, or was even arrested for burglary!? Dive into the fantastically funny world of Terry Pratchett, for a festive treat like no other. These ten stories will have you laughing, gasping and crying (with laughter) - you'll never see Christmas in the same way again.

Mammal Kingdom Jun 27 2022 Animal conservation is an important issue and these great guides teach young children all about animals that live in sanctuaries, as well as endangered species and animal habitats.

Wild Mammals in Captivity Sep 06 2020 Zoos, aquaria, and wildlife parks are vital centers of animal conservation and management. For nearly fifteen years, these institutions have relied on *Wild Mammals in Captivity* as the essential reference for their work. Now the book reemerges in a completely updated second edition. *Wild Mammals in Captivity* presents the most

current thinking and practice in the care and management of wild mammals in zoos and other institutions. In one comprehensive volume, the editors have gathered the most current information from studies of animal behavior; advances in captive breeding; research in physiology, genetics, and nutrition; and new thinking in animal management and welfare. In this edition, more than three-quarters of the text is new, and information from more than seventy-five contributors is thoroughly updated. The standard text for all courses in zoo biology, *Wild Mammals in Captivity* will, in its new incarnation, continue to be used by zoo managers, animal caretakers, researchers, and anyone with an interest in how to manage animals in captive conditions.

Eighteen Days to the Massacre Jan 11 2021 Teresa Headley, a friend of exotic animal owner Terry Thompson, advocates for exotic animal owners in the state of Ohio.

A Fire at the Zoo Oct 20 2021

Beyond Animal Welfare Jun 15 2021 *Beyond Animal Welfare* is a personal account of the wellness construct and its utility as an animal welfare enhancement. Professor Terry L. Maple discovered wellness as he sought to optimize animal welfare standards and practices in his dual career as an animal welfare scientist and a CEO for two zoos in Atlanta and West Palm Beach, Florida. The book examines the merger of human-centered wellness principles and the advancing quality of life offered to wildlife in human care. Professor Maple reveals that wellness applies to both human beings and animals, communities, and ecosystems. The key to long-term improvements in living standards is wellness-inspired design, a process whereby the animal is encouraged to thrive by creative enhancements to its physical and social environment. The art and science of wellness is identified as the new frontier of animal welfare reform.

existential crisis, and artistic yearnings fill this wide-ranging novel from the prize-winning author of "Sabbath Night in the Church of the Piranha."

Steve & Me Jun 03 2020 The widow of Australian naturalist Steve Irwin describes their marriage, the early adventures that were to become the popular "Crocodile Hunter" show, and life up to his fatal 2006 accident.

Zoo Animal Welfare Nov 01 2022 Zoo Animal Welfare thoroughly reviews the scientific literature on the welfare of zoo and aquarium animals. Maple and Perdue draw from the senior author's 24 years of experience as a zoo executive and international leader in the field of zoo biology. The authors' academic training in the interdisciplinary field of psychobiology provides a unique perspective for evaluating the ethics, practices, and standards of modern zoos and aquariums. The book offers a blueprint for the implementation of welfare measures and an objective rationale for their widespread use. Recognizing the great potential of zoos, the authors have written an inspirational book to guide the strategic vision of superior, welfare-oriented institutions. The authors speak directly to caretakers working on the front lines of zoo management, and to the decision-makers responsible for elevating the priority of animal welfare in their respective zoo. In great detail, Maple and Perdue demonstrate how zoos and aquariums can be designed to achieve optimal standards of welfare and wellness.

A Contract with the Earth Oct 08 2020 A bold rallying cry for conservative environmental leadership from Newt Gingrich, New York Times bestselling author of *Trump and the American Future*. Appealing to America's core conservative readership and defying conventional thinking, former Speaker of the House Newt Gingrich and eminent conservationist Terry L. Maple posit that the values of conservative America are aligned with the principles of conservation and "entrepreneurial environmentalism." Saving the earth is not—and cannot be—a partisan issue. outline a ten-point Contract with the Earth that promotes ingenuity over rhetoric, maintaining that the expansion of "green business," new technologies, and environmental economic incentives will be the defining opportunities for the leaders of the next generation. An inspiring call to action, A Contract with the Earth offers a vision of the future that is both hopeful and achievable.

Atlanta's Iconic Ape Dec 10 2020 At the time of his death at Zoo Atlanta in 2000, Willie B. was arguably the most famous gorilla in the world. Locally, he was an icon with more than 8,000 people in attendance at his memorial service conducted by Atlanta's Mayor, Reverend Andrew Young. Zoo Atlanta's reform President/CEO, Georgia Tech Professor Terry Maple, was responsible for Willie B.'s transformation into a successful silverback. In a phrase, Professor Maple freed Willie B. to live in an urban Eden, the Ford African Rain Forest exhibit where he sired five off spring. His extraordinary story is described in this fascinating biography of his life. The story of Willie B. is a metaphor for the Zoo Atlanta story, an institution that evolved from an industry pariah to become one of America's most innovative zoological parks. It is also Terry Maple's history of his eighteen years rebuilding the zoo and directing one of the most important behavioral research programs in the world. Because Maple and his students studied the zoo's metamorphosis in detail, it is the most documented recovery of a failed nonprofit in the nation's history. Zoo Atlanta has become a model for other zoos that have adopted a nonprofit governance model. The reproductive record of the Ford African Rain Forest was acknowledged by the presentation of a prestigious Edward H. Bean Award for gorilla conservation from the Association of Zoos and Aquariums. The evolution of naturalistic zoo exhibits is thoroughly documented in Professor Maple's comprehensive account.

moments of shocking violence, memories of the past, fantastical monologues, and that strange mix of the barbaric and the beautiful he has made all his own. And yet each play, while remaining a work no other dramatist could have written, manages to surprise, push the boundaries and subvert expectation.

Scientific Foundations of Zoos and Aquariums Nov 20 2021 Using first-person stories and approachable scientific reviews, this volume explores how zoos conduct and support science around the world.

Ethics on the Ark Feb 21 2022 Ethics on the Ark presents a passionate, multivocal discussion—among zoo professionals, activists, conservation biologists, and philosophers—about the future of zoos and aquariums, the treatment of animals in captivity, and the question of whether the individual, the species, or the ecosystem is the most important focus in conservation efforts. Contributors represent all sides of the issues. Moving from the fundamental to the practical, from biodiversity to population regulation, from animal research to captive breeding, Ethics on the Ark represents an important gathering of the many fervent and contentious viewpoints shaping the wildlife conservation debate.

until the sun sets at night, the savanna is alive with noise. A lion roars in the early morning, a young baboon shrieks to warn others of danger at noon, and a young mouse squeals at dusk. What are the animals saying and why? Animals communicate in many ways; explore the thriving African savanna as its inhabitants “talk” to one another throughout the course of a day.

Museum Philosophy for the Twenty-First Century Nov 28

2019 What underlying philosophy and mission should museums pursue in the first half of the twenty-first century? In *Museum Philosophy*, twenty-four authors use the lenses of a variety of disciplines to answer this essential question. Museum professionals offer their answers alongside philosophers, historians, political scientists, educators, sociologists, and others in a wide-ranging exploration of institutions from art museums to zoos. Hugh Genoway's book offers philosophical and ethical guidelines, describes the ways specific institutions illustrate different philosophies, examines major divisions in the museum community, and explores outreach and engagement between the museum and its larger community. Both established museum professionals and students of museum studies will benefit from this insightful look into the foundations and future of their field.

Who Asked You? Sep 18 2021 Trinetta drops off her two young boys with her mother, Betty Jean - and then pulls a disappearing act. BJ is a sassy, pull-no-punches, trademark McMillan matriarch, and she already has her hands full picking up the slack for her other kids, coaching her best friend Tammy through her own tribulations and dealing with two feuding sisters, all while holding down a job as a hotel maid. *Who Asked You?* raises questions about how we care for one another and how we set limits for those we love when the demands are too great.

The Contractor Aug 25 2019 "...these are stories crying out to be turned into a gritty television drama - think a true story version of *The Night Manager*." Sydney Morning Herald 'I fix things. I can build you a house or remodel your bathroom. I can also make bad situations - and bad people - disappear.' Meet Mike. Runs a building site, drives a ute, likes a beer, loves his nail-gun. But Mike is hiding in plain sight. When the Pentagon call him in as 'Big Unit', he's another kind of contractor - one as handy with a Colt M4 as he is with a Skilsaw, a man as accustomed to danger, death, and pain as he is to a hammer and nails. In six action-packed true stories we follow a man who left foreign intelligence for a life 'on the tools', only to discover there's too many dangerous scenarios and terrible people still out there. The good guys need a James Bond in Blundstones. They need *The Contractor*. Tradie. Spy. Big Unit. Follow Big Unit as he goes undercover to save a family trapped by an ISIS-run drug cartel in the seedy back streets of Northern Pakistan to terrorist-besieged Paris to a deadly game of cat-and-mouse with Australia's most wanted murderer. Professor in the Zoo May 27 2022 Professor in the Zoo presents a vision for future zoos and aquariums based on the author's forty years of experience as a zoological leader and a university scholar. Dr. Terry L. Maple was the reform CEO of Zoo Atlanta where he transformed the zoo into one of the most innovative zoos in the world. Dr. Maple is known worldwide for his advocacy of empirical, ethical zoos where the welfare of the animals is the first priority. His research on the construct of wellness has provided opportunities to design zoos of exceptional quality where animals are encouraged to thrive. Dr. Maple is the coauthor of Zoo Animal Welfare (Springer 2013), Gorilla Behavior (Van Nostrand Reinhold, 1982), the author of Saving the Giant Panda (Longstreet, 2000), and the co-editor of Ethics on the Ark (Smithsonian, 1995). He is the founding editor of the journal Zoo Biology and a former Chair of the board for the Association of Zoos and Aquariums. Dr. Maple is Elizabeth S. Watts Professor of Conservation & Behavior Emeritus at the Georgia Institute of Technology, Director Emeritus of Zoo Atlanta, and Professor in Residence at the Jacksonville Zoo & Gardens. He is currently affiliated with Florida Atlantic University and the University of North Florida. At Emory University, Georgia Tech, and Florida Atlantic University, he supervised 31 doctoral-level students, many of whom are working in North American zoos. An expert on the psychobiology of nonhuman primates, he and his students have authored more than 250 scholarly publications. He is an elected Fellow of the American Psychological Association and the Association of Psychological Science. He was educated at the University of the Pacific, the University of Stockholm, and the University of California at Davis. He is a leadership consultant to aquariums, zoos, and other non-profit institutions and currently resides on Amelia Island in Florida.
