**Shogun's Painted Culture** Jan 26 2022 In this penetrating analysis of a little-explored area of Japanese cultural history, Timon Screech reassesses the career of the chief minister Matsudaira Sadanobu, who played a key role in defining what we think of as Japanese culture today. Aware of how visual representations could support or undermine regimes, Sadanobu promoted painting to advance his own political aims and improve the shogunate's image. As an antidote to the hedonistic ukiyo-e, or floating world, tradition, which he opposed, Sadanobu supported attempts to construct a new approach to painting modern life. At the same time, he sought to revive historical and literary painting, favouring such artists as the flamboyant, innovative Maruyama Okyo. After the city of Kyoto was destroyed by fire in 1788, its reconstruction provided the stage for the renewal of Japan's iconography of power, the consummation of the 'shogun's painted culture'. "Screech's ideas are fascinating, often brilliant, and well grounded. . . . [Shogun's Painted Culture] presents a thorough analysis of aspects of the early modern Japanese world rarely observed in such detail and never before treated to such an eloquent handling in the English language."—CAA Reviews "[A] stylishly written and provocative cultural history."—Monumenta Nipponica "As in his admirable *Sex and the Floating World: Erotic Images in Japan 1700-1820*, Screech lavishes learning and scholarly precision, but remains colloquial in thought and eminently readable."—Japan Times Timon Screech is Senior Lecturer in the history of Japanese art at SOAS, University of London, and Senior Research Associate at the Sainsbury Institute for the Study of Japanese Arts and Cultures. He is the author of several books on Japanese history and culture, including *Sex and the Floating World: Erotic Images in Japan 1700-1820* (Reaktion, 1999).

[The Culture of Secrecy in Japanese Religion](#) Sep 29 2019 The Japanese Middle Ages were a period when forms of secrecy dominated religious practice. This fascinating collection traces out the secret characteristics and practices in Japanese religion, as well as analyzing the decline of religious esotericism in Japan. The essays in this impressive work refer to Esoteric Buddhism as the core of Japan's "culture of secrecy". Esoteric Buddhism developed in almost all Buddhist countries of Asia, but it was of particular importance in Japan where its impact went far beyond the borders of Buddhism, also affecting Shinto as well as non-religious forms of discourse. The contributors focus on the impact of Esoteric Buddhism on Japanese culture, and also include comparative chapters on India and China. Whilst concentrating on the Japanese medieval period, this book will give readers familiar with present day Japan, many explanations for the still visible remnants of Japan's medieval culture of secrecy.

**Stranger in the Shogun's City** Jan 14 2021 \* Nominated for the 2020 National Book Critics Circle Award \* Finalist for the 2021 PEN/Jacqueline Bograd Weld Award for Biography \* A vivid, deeply researched work of history that explores the life of an unconventional woman during the first half of the 19th century in Edo—the city that would become Tokyo—and a portrait of a great city on the brink of a momentous encounter with the West. The daughter of a Buddhist priest, Tsuneno was born in a rural Japanese village and was expected to live a traditional life much like her mother's. But after three divorces—and a temperament much too strong-willed for her family's approval—she ran away to make a life for herself in one of the largest cities in the world: Edo, a bustling metropolis at its peak. With Tsuneno as our guide, we experience the drama and excitement of Edo just prior to the arrival of American Commodore Perry's fleet, which transformed Japan. During this pivotal moment in Japanese history, Tsuneno bounces from tenement to tenement, marries a masterless samurai, and eventually enters the service of a famous city magistrate. Tsuneno's life provides a window into 19th-century Japanese culture—and a rare view of an extraordinary woman who sacrificed her family and her reputation to make a new life for herself, in defiance of social conventions. Immersive and fascinating, *Stranger in the Shogun's City* is a revelatory work of history, layered with rich detail and delivered with beautiful prose, about the life of a woman, a city, and a culture. [Epic Television Miniseries](#) Nov 04 2022 To paraphrase silent movie queen Norma Desmond in Billy Wilder's classic 1950 film *Sunset Boulevard*, "The epic miniseries are big! It's television that got small!" This is

especially true when one compares such iconic epic miniseries as *Rich Man, Poor Man* (1976), *Roots* (1977), *Holocaust* (1978), *Shogun* (1980), *The Winds of War* (1983), *War and Remembrance* (1988-89) and *Angels in America* (2003) to today's ordinary television programming. This work traces the historical trajectory of the epic miniseries and delves into the character archetypes and themes that recur in the genre, giving close critical attention to more than 40 miniseries. A filmography is included.

**The Material Culture of Death in Medieval Japan** Apr 16 2021 This study is the first in the English language to explore the ways medieval Japanese sought to overcome their sense of powerlessness over death. By attending to both religious practice and ritual objects used in funerals in the fourteenth and fifteenth centuries, it seeks to provide a new understanding of the relationship between the two. Karen Gerhart looks at how these special objects and rituals functioned by analyzing case studies culled from written records, diaries, and illustrated handscrolls, and by examining surviving funerary structures and painted and sculpted images. The work is divided into two parts, beginning with compelling depictions of funerary and memorial rites of several members of the aristocracy and military elite. The second part addresses the material culture of death and analyzes objects meant to sequester the dead from the living: screens, shrouds, coffins, carriages, wooden fences. This is followed by an examination of implements (banners, canopies, censers, musical instruments, offering vessels) used in memorial rituals. The final chapter discusses the various types of and uses for portraits of the deceased, focusing on the manner of their display, the patrons who commissioned them, and the types of rituals performed in front of them. Gerhart delineates the distinction between objects created for a single funeral and meant for use in close proximity to the body, such as coffins and those, such as banners, intended for use in multiple funerals and other Buddhist services. Richly detailed and generously illustrated, Gerhart introduces a new perspective on objects typically either overlooked by scholars or valued primarily for their artistic qualities. By placing them in the context of ritual, visual, and material culture, she reveals how rituals and ritual objects together helped to comfort the living and improve the deceased's situation in the afterlife as well as to guide and cement societal norms of class and gender. Not only does her book make a significant contribution in the impressive amount of new information that it introduces, it also makes an important theoretical contribution as well in its interweaving of the interests and approaches of the art historian and the historian of religion. By directly engaging and challenging methodologies relevant to ritual studies, material culture, and art history, it changes once and for all our way of thinking about the visual and

religious culture of premodern Japan. "

*Pyrotechnic Cities* Jun 30 2022 This book explores the relationship between architecture, government and fire. It posits that, through the question of fire-safety standardisation, building design comes to be both a problem for, and a tool of, government. Through a close study of fire-safety standards it demonstrates the shaping effect that architecture and the city have on the way we think about governing. Opening with an investigation into the Grenfell Tower fire and the political actors who sought to enrol it in programmes of governmental reform before contextualising the research in current literature, the book takes four city studies, each beginning with a specific historic fire: The 1654 Great Fire of Meirecki, Edo; the 1877 town fire of Lagos; the 1911 Empire Palace Theatre fire, Edinburgh; and the 2001 World Trade Centre attack, New York. Each study identifies the governmental response to the fire, safety standards and codes designed in its wake and how these new processes spread and change. Drawing on the work of sociologists John Law and Anne Marie Mol and their concept of 'Fire Space', it describes the way that architectural design, through the medium of fire, is an instrument of political agency. *Pyrotechnic Cities* is a critical investigation into these political implications, written for academics, researchers and students in architectural history and theory, infrastructure studies and governance.

**Red Chrysanthemum** May 06 2020 Laura Joh Rowland draws on the tradition of the classic film *Rashomon* to bring us a masterful tale of intrigue and treachery, in *Red Chrysanthemum*. July 1698. Sano Ichiro, the samurai detective who has risen to become the shogun's second-in-command, is investigating rumors of a plot to overthrow the ruling regime. When the investigation brings Sano's deputy Hirata to Lord Mori's estate, he is shocked to find Lord Mori murdered and grotesquely mutilated in his own bed, and Sano's pregnant wife, Reiko, lying beside him. The only solid clue is a chrysanthemum soaked in blood. Reiko's account of her actions is anything but solid. She insists that she went undercover to Lord Mori's estate in order to investigate claims that he molested and murdered young boys. But when Sano inspects the crime scene, he finds no trace of what Reiko described. And every other witness tells a different story: Lady Mori alleges that Reiko was Lord Mori's scorned mistress and murdered him for revenge. And Lord

Mori himself, speaking through a medium, claims his murder was part of Sano's plot to overthrow the shogun! Unless Sano can prove his wife's unlikely claims, both he and Reiko—and their unborn child—face execution for treason. Sano fights desperately to save his family and his honor.

[The Company and the Shogun](#) Feb 24 2022 The Dutch East India Company was a unique, hybrid organization acting as both company and state, aggressively intervening in Asian political matters in which it had no place. This study focuses on the company's clashes with Tokugawa Japan in the seventeenth century, particularly in the areas of diplomacy, sovereignty, and violence. In each encounter, the Dutch were forced to abandon claims to sovereign powers and refashion themselves—from subjects of a fictive king to loyal vassals of the shogun, from aggressive pirates to meek merchants, and from insistent defenders of colonial rule to legal subjects of the Tokugawa state. The first book to treat the Dutch East India Company as more than a commercial enterprise, this text offers unprecedented perspective on one of the most important, long-lasting unions between an Asian state and a European overseas enterprise and the surprisingly limited influence of Europeans operating in early-modern Asia.

[Computers, Visualization, and History](#) Oct 03 2022 This visionary and thoroughly accessible book examines how digital environments and virtual reality have altered the ways historians think and communicate ideas and how the new language of visualization transforms our understanding of the past. Drawing on familiar graphic models--maps, flow charts, museum displays, films--the author shows how images can often convey

ideas and information more efficiently and accurately than words. With emerging digital technology, these images will become more sophisticated, manipulable, and multidimensional, and provide historians with new tools and environments to construct historical narratives. Moving beyond the traditional book based on linear narrative, digital scholarship based on visualization and hypertext will offer multiple perspectives, dimensions, and experiences that transform the ways historians work and people imagine and learn about history. This second edition of *Computers, Visualization, and History* features expanded coverage of such topics as sequential narratives, 3-D modeling, simulation, and video games, as well as our theoretical understanding of space and immersive experience. The author has also added "Guidelines for Visual Composition in History" for history and social studies teachers who wish to use technology for student assignments. Also new to the second edition is a web link feature that users of the digital edition can use to enhance visualization within the text.

**Preserving the Dharma** Aug 09 2020 In this beautifully illustrated book, eminent art historian John Rosenfield explores the life and art of the Japanese Buddhist monk Hozan Tankai (1629–1716). Through a close examination of sculptures, paintings, ritual implements, and primary documents, the book demonstrates how the Shingon prelate's artistic activities were central to his important place in the world of late-seventeenth-century Japanese Buddhism. At the same time, the book shows the richness of early modern Japanese Buddhist art, which has often been neglected and undervalued. Tankai was firmly committed to the spiritual disciplines of mountain Buddhism—seclusion, severe asceticism, meditation, and ritual. But in the 1680s, after being appointed head of a small, run-down temple on the slopes of Mount Ikoma, near Nara, he revealed that he was also a gifted artist and administrator. He embarked on an ambitious campaign of constructing temple halls and commissioning icons, and the Ikoma temple, soon

renamed Hōzanji, became a vibrant center of popular Buddhism, as it remains today. He was a remarkably productive artist, and by the end of his life more than 150 works were associated with him. A major reconsideration of a key artistic and religious figure, *Preserving the Dharma* brings much-needed attention to an overlooked period of Japanese Buddhist art.
