What If Your Prince Falls Off His Horse? Jul 27 2019 Most husbands die before their wives and more than 50 percent of marriages end in divorce. Despite these dismal odds, many women don't get involved

in their family's financial planning because their husbands take care of it, they think it's too complicated for them to understand, or they just don't want to bother. This book explains in an entertaining and simple style why women should bother, what they need to know, and how to get involved in the business aspect of their marriages to have a better, more secure life and a stronger partnership. It's even worse when it feels like your whole future—or at least where you'll spend the next four years in college—is on the line. It's easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news? You already have the "secret sauce" for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you've struggled and describes mistakes you've made. Excellent essays express what you're fired up about, illustrate how you think, and illuminate the ways you've grown. More than twenty

million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person—you. This book will help you figure out how to find and present the best in yourself. You'll acquire some useful tools for writing well—and may even have fun—in the process.
