and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

*No Grammar Tears 1* Sep 02 2022 First of all other, I find *No Grammar Tears* very informative. What amazes me is the kind of dedication and patience Marthus-Adden spent in writing this book. This is because this kind of genre actually needs full attention. Truly, whatever he has written is precise and correct. I really admire his generosity of sharing his knowledge about English owing to the fact that English is his second language. What is good about the book is that the writer wrote it in a manner that readers can easily understand it. In other words, what makes this book different from the other English grammar books in the market is that it is more user-friendly, which means he wrote it in a manner that can easily be understood, especially by those who just learned English and want to learn more.

Correctly put, this book is a guide to those who wants to learn English on their own. As a matter of fact, he has a knowledge check in every subject he has discussed in this book. He catered everything, especially in the part on how to construct sentences, which are very precise and which make it very easy to learn the book. He did not change anything at all in terms of the right way to speak and learn English, but instead he made it easier and more convenient for those people whose English is not their first language. In point of fact, he wrote this book not because he wants to show off to the world that he is a good grammarian, but because he wants to help those struggling to learn English. The book therefore deserves recognition because he is actually giving a favour to those who can't afford to have a private tutor to teach them how to speak English correctly. I must, in conclusion, admit that this book will really help those people who want to learn English language; those people who are striving to speak perfect English; and those people that English is their second language. I will therefore commend the author for this book.

WAEC in Review Nov 04 2022 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army-Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

**Language Endangerment** Oct 11 2020 This commemorative volume is the 12th edition in the Nigerian Linguists Festschrift Series devoted to Professor (Mrs.) Appolonia Uzoaku Okwudishu. The majority of the papers were presented at the 27th Annual Conference of the Linguistic Association of Nigerian (CLAN) which was held at the Benue State University, Makurdi, Nigeria, and the 26th CLAN which was held at the University of Ibadan, Nigeria. The title derives from the theme of the 27th CLAN: Language Endangerment: Globalisation and the Fate of Minority Languages in Nigeria. A large number of the papers address the major theme of the conference, while the balance address various aspects of Nigerian linguistics, languages, communication, and literature. Fifty-one papers are included, ranging from sociolinguistics through applied linguistics to formal areas of linguistics which include phonology, morphology and syntax of Nigerian languages. Papers on language endangerment and language revitalisation strategies for safeguarding the vanishing indigenous tongues of Nigeria are the major focus, and the book serves as important reference material in various aspects of language and linguistic studies in Nigeria.

**My Years in the Early Peace Corps** May 18 2021 In this book Sonja Krause Goodwin recounts her experience joining the Peace Corps in 1964 and describes the training she underwent to teach in Nigeria at Columbia Teachers College in New York City.

Goodwin tells readers about her service as a University teacher in physics while also serving as head of the Physics Department at Lagos University in Nigeria. She also describes her vacation travels during that time, mostly in Nigeria— including an attempt to climb Mt. Cameroon. She writes about her interactions with her students, her fellow University teachers and other University employees, her fellow Peace Corps volunteers and other expatriates, and Nigerians whom she met under during her travels. Goodwin also delves into the politically motivated “university crisis” that led to the exodus from the university and Nigeria of almost all the expatriate teaching staff of the university including the Peace Corps volunteers. She also discusses some of her work for the West African Examinations Council and the Aptitude Testing Unit in Lagos while waiting to be sent to another assignment for her second year in the Peace Corps.

*Contemporary Rural Geographies* Jun 26 2019 This book provides a cohesive set of research statements on critical related issues in British rural geography, as well as echoing the priorities identified by an influential figure in British rural geography, Richard Munton. This book demonstrates that the rural world needs to be seen in a far wider perspective than that of agriculture/ food production, in order to comprehend how resources are being appraised and exploited in new ways, and to respond to the pressing challenges of sustainability for the decades ahead. Chapters adopt a time perspective to explore a

The final set of chapters is devoted to policy-related issues associated with agricultural change and the profound challenge of rural diversification for the future. The last chapter traces the prominent career of Richard Munton.

**The Practical School of the Holy Spirit - Part 5 of 8** Jan 26

2022 The Practical School of the Holy Spirit - Part 5 of 8, Activate 12 Ministry Gifts in You, Get Equipped to Counsel Self, Others and Expect Mind-boggling Insights in the Secret Place What is my motivation for writing this book and why would you want to read it? As we engage the marketplace as ambassadors of Christ - 2 Corinthians 5:21, never before has there been a need to be led by the Spirit of God than it is now. As we race towards the end, activities in the realm of the spirit continue to be heightened because the destiny of the human race hangs in the balance. Our ministry of reconciliation cannot be done on human wisdom, intellect, tactics or strategy devoid of the power and the working of the Holy Spirit. As Christians, we should realize that we are spirit with a mind using our bodies as containers to execute. As Christians, our spirit has joined with the Spirit of God at conversion. To be motivated in body, we have to first be motivated in our spirit. The Spirit then communicates to our spirit and this to our minds and our minds instructs our body to take action based on the instruction sent to us by God's Spirit in us. But for lack of understanding and knowledge of the working and ways of the Holy Spirit, some of us have either ignored or grieved the Holy Spirit. As a result, our sensitivity to Him has died or He has chosen not to lead us any longer. This series on the school of the Holy Spirit will help heighten our sensitivity and working with our best friend who is ready and willing to help us be all that God

has called us to be and to do. At the end of this series, some of us will begin to dream dreams with more clarity and poise, we will be activated in the realm of visions again, we will begin to pick up promptings, voices, flows from the Holy Spirit and interpret them accurately what the Holy Spirit is saying to us the churches so that we can be effective in the mission field of life. We developed these 41 series and further broke these up into 6 easy to read chapters of 8 books of which this one is our fifth in the series. We hope you like it and we pray it will make you an effective kingdom disciple-maker, operating powerfully in the Spirit realm in Jesus name, Amen
