*Lone Survivor* Dec 31 2019 In June 2005 four US Navy SEALs left their base in Afghanistan for the Pakistani border. Their mission was to capture or kill a notorious al-Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs was alive. This is the story of team leader Marcus Luttrell, the sole survivor of Operation Redwing. Blasted unconscious by a rocket grenade, blown

over a cliff, but still armed and still breathing, Luttrell endured four desperate days fighting the al-Qaeda assassins sent to kill him, before finding unlikely sanctuary with a Pashtun tribe who risked everything to protect him from the circling Taliban killers.

Seals and their Context in the Middle Ages Feb 22 2022 Seals and their Context in the Middle Ages offers an extensive overview of approaches to and the potential of sigillography, as well as introducing a wider readership to the range, interest and artistry of medieval seals. Seals were used throughout medieval society in a wide range of contexts: royal, governmental, ecclesiastical, legal, in trade and commerce and on an individual and personal level. The fourteen papers presented here, which originate from a conference held in Aberystwyth in April 2012, focus primarily on British material but there is also useful reference to continental Europe. The volume is divided into three sections looking at the history and use of seals as symbols and representations of power and prestige in a variety of institutional, dynastic and individual contexts, their role in law and legal practice, and aspects of their manufacture, sources and artistic attributes. Importantly and distinctively, the volume moves beyond the study of high status seals to consider such themes as the social and economic status of seal-makers, the nature and meaning \_ including reflections of deliberate wit and boastfulness \_ of specific motifs employed at various levels of society, and the distribution of seals in relation to the location of, for instance, religious institutions and along major routeways. In so doing, it sets out ways in which sigillography can open new pathways into the study of non-elites and their cultures in medieval society.

**Mining Latin America / Minería Latinoamericana** Jul 26 2019 In November, 1986, the Institution of Mining and Metallurgy held the 'Mining Latin America/Minería Latinoamericana' conference in Chile - a conference covering a broad range of topics relevant to South America and, in that sense, complementary to its regional 'Asian Mining' and 'African Mining' series of events. This first conference proved to be a resounding success and confirmed that Chile, in particular, and South America, in general, were indeed ideal for the Institution in the pursuit of its objective of disseminating information related to the international minerals industry. In relation to South America, the Chilean conference was followed, in 1988, by that entitled 'Silver - exploration, mining and treatment', \* which was held in Mexico City; in February, 1995, Caracas will host the 'Mineral resources of Venezuela/Recursos minerales de Venezuela' conference, serious planning for which is under way as I write. The Institution of Mining and Metallurgy, in association with the Instituto de Ingenieros de Minas de Chile, Minería Chilena and Latinominería agreed that the second 'Mining Latin America/Minería Latinoamericana' conference should be held, again in Santiago, in May, 1994, on the occasion of the 1994 Expomin show, which had been particularly successful in attracting visitors from mining countries worldwide in 1992 and which will continue, at two-yearly intervals, to the year 2000 and, no doubt, beyond.

*SEAL & Veteran Series* Jun 04 2020 SEAL's Homecoming When Chance McCallister left her to join the Navy SEALS, Mandy Loomis was devastated. Now, more than ten years later, Chance and his brothers are back in town for their father's funeral, but Mandy is no longer that moon-eyed teenager she once was. She's a fiercely independent woman determined to solve her own problems—and she has plenty. When her gambler father died two years prior, he left Mandy—along with a successful auto repair business—with a ton of debt owed to a ruthless loan shark. Mandy is barely getting by, and when her mechanic quits, she's in a real bind. It just so happens, Chance is willing to help out.

Sure, Chance is bigger, stronger, and sexier than ever, but Mandy isn't interested in anything but his mechanical skills. Or maybe just a bit interested in his kissing skills—which, by the way, are just as good as she remembers. SEAL's Accidental Family All her life, Rachel Winchester has fought against the idea that she was nothing but white trash destined for Loserville. Now, it seems all that fighting was for nothing. Sure, she's running a successful B&B and, yes, she finally had her way with a man she's crushed on for forever—Harris McCallister, the guy she's flirted with for years; the guy she's thought about and pined for. She's finally feeling good about the future when—bam—she gets pregnant. True or not, in her world, nothing says white trash more than an unmarried pregnant woman. Worse, her “loving” mother is threatening her over the B&B and the property it sits on, all because of a silly legend about a pirate's buried treasure. Harris doesn't know what it is about Rachel, but he's always been drawn to her. With her brightly dyed hair and sexy-as-hell tattooed body, she's impossible to ignore—and drives him crazy in all the best ways. Finding out she's carrying his baby has him thinking things he's never thought before. Thoughts he brutally pushes away. Returning to active duty as a Marine Raider is what he wants, not settling down and playing house. He'll stick around just long enough to make sure Rachel and the baby-to-be are safe from increasingly disturbing attacks they both believe has to do with an old legend about a pirate's buried treasure. The longer he stays, though, the tougher returning to duty is becoming. But when the time comes to head back to the Marines, he has to make the toughest decision of his life—duty to his country, or life with the woman he loves. Ranger's Protection Viktoria Jonsdottir is none too pleased with the personal bodyguard her father has insisted on hiring to keep her safe. Safe from what, she has no idea, but she's convinced having this brooding man hovering over her is completely unnecessary. All she wants to do is get to New York where her father is conducting high level meetings for their corporation—meetings she arranged, to prove her value to the company. Sure, Lee MacCallister is sexy as hell and his eyes would make an ordinary woman swoon. But Viktoria is no ordinary woman. She's not going to fall for Lee, even if he does make her feel things she's never felt before. Like this strange new emotion that just might be...happiness. It's a simple enough assignment for the former Army Ranger—protect some rich, spoiled woman for a few days then pick up the check. Only thing is, Viktoria isn't like any woman he's ever met. She's tough, smart, and has a body that's more than a little distracting. He can keep it professional, even though she's beyond tempting as sin. But when things get dicey and Victoria's enemies prove to be far more dangerous than Lee anticipated, he realizes Viktoria has become more than an assignment—she's become personal. And that could be the most dangerous thing of all.
