Secondhand Feb 24 2022 From the author of Junkyard Planet, "an anthem to decluttering, recycling, making better quality goods and living a simpler life with less stuff." -Associated Press Downsizing. Decluttering. Discarding. Sooner or later, all of us are faced with things we no longer need or want. But when we drop our old clothes and other items off at a local donation center, where do they go? Sometimes across the country-or even halfway across the world-to people and places who find value in what we leave behind. In Secondhand, journalist Adam Minter takes us on an unexpected adventure into the often-hidden, multibillion-dollar industry of reuse: thrift stores in the American Southwest to vintage shops in Tokyo, flea markets in Southeast Asia to used-goods enterprises in Ghana, and more. Along the way, Minter meets the fascinating people who handle-and profit from-our rising tide of discarded stuff, and asks a pressing question: In a world that craves shiny and new, is there room for it all? Secondhand offers hopeful answers and hard truths. A history of the stuff we've used and a contemplation of why we keep buying more, it also reveals the marketing practices, design failures, and racial prejudices that push used items into landfills instead of new homes. Secondhand shows us that it doesn't have to be this way, and what really needs to change to build a sustainable future free of excess stuff. "Minter is a superb storyteller. . . [Secondhand is] a book I'd recommend buying now instead of waiting for it to show up at your local thrift store." -NPR "Revelatory, terrifying, but, ultimately, hopeful." -Elizabeth Kolbert, Pulitzer Prize-winning author of **THE SIXTH EXTINCTION**

**Rural Rides** Jun 30 2022 Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing Rural Rides, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

**Add to Cart Tuneup** Dec 01 2019 Your ecommerce website probably is a gold vein waiting to be mined, but in order to get those "nuggets" out, you need a good map. Add to Cart Tuneup will be your guide for this expedition. Don't buy into the idea that having millions of people visit your web store will make your cash register ring non-stop. If your site is not optimized to sell those prospects, all you have is website visitors. You need to convert them to customers, if you want to make money. In this book, self-made web entrepreneur Luis Hernandez, Jr., shares valuable lessons he learned over 15 years of trial and error. Back in "good ol' days," (ci. 1994), before most people had even heard about the Internet or the World Wide Web, Luis was busy at work trying to figure out how to build and launch a website, and by 1997 he opened the cyber doors to his online bookstore. What started in the 3rd bedroom of his Central Florida home, was destined to grow and expand at a fast pace, and by the time Luis sold his online bookstore in early 2013, the business had grown considerably and relocated twice, with the last move in 2005 to a custom-built air-conditioned warehouse employing five people and having served more than 600,000 customers by the end of 2012. Quite an accomplishment considering that Luis' webstore competitors included retail and book-selling giants such as Amazon and Barnes & Noble, to name only two of the largest ones. As Luis likes to say, "You can't help it but learn a thing or two about ecommerce in 15 years." But that "thing or two" actually translated into sixty valuable lessons and tips on how to optimize a retail web store in order to maximize sales. What took Luis a decade-and-a-half to test, tweak, test again, prove, and learn, has been condensed into this book. No fluff. No bells and whistles. This is a distilled, nuts-and-bolts, hands-on, no-nonsense guide to an "overnight" success formula, 15 years in the making. If by implementing just one idea from this book, your web store captures a single additional sale every other day, your return on investment will be nothing short of incredible. What would happen then if you were able to implement 5 ideas from this book? Luis discovered early on in his career that it was much easier to spend time and effort learning what it took to motivate existing website visitors to make a purchase, rather than chasing traffic. So while other merchants wasted time and resources trying to generate more visitors, Luis made money! At the end of the day it is not about being able to brag about how many people visited your store. It's about generating revenues and profits. Use Add to Cart Tuneup to turn website visitors into paying customers.

**Shared Outside Sales** Nov 23 2021 The Shared Outside Sales (SOS) system is a proven system and an alternative to a full-time sales job with one company. It allows the salesperson the freedom to sell the kind of products and services he has the most knowledge of or most likes selling. He chooses his own clients and sets his own salary. The SOS system allows a salesperson to go from employee to company owner without the usual pitfalls of opening a new business. If the salesperson's business is built before he leaves his current job, there is no break in income. Job satisfaction and job security are increased, and the pressure associated with generating sales for a single employer is decreased. The SOS system allows the salesperson to work business around his life rather than working his life around business. There are opportunities for business growth and a substantially increased income. By building relationships with multiple companies and customers, other opportunities may also arise. GOOD LUCK!
