Unconscious Putting Mar 01 2020 "The Pro Tours' Hottest Coach" (Golf Digest) reveals the secrets that helped Phil Mickelson win the 2010 Masters and can utterly transform every player's game. When a resurgent Phil Mickelson won the Tour Championship in September 2009, he was quick to credit a series of simple putting lessons from veteran golf champion and instructor Dave Stockton. As a top coach, Stockton has taught a long list of pro players-including Annika Sorenstam, Yani Tseng (winner of four LPGA tournaments), Adam Scott (Texas Open champion), Hunter Mahan (Phoenix Open champion), and Morgan Pressel (World Ladies Championship of Japan winner)-the putting strategies that finessed their game. Stockton's breakthrough concept is that every player has their own Signature Stroke, which is unconscious. Good putting comes from the mind, Stockton says, not from a series of stiff mechanical positions. With visualization, the right frame of mind, an efficient pre-putt routine, and connection to the individual internal stroke signature, any player can make far more putts. Putting has always been taught as an offshoot to the full swing, when in reality it is far different- almost a different game. Unconscious Putting will help players get out of the rigid, mechanical, overthinking trap. In Unconscious Putting, Stockton shows how players at every handicap level-from pros to weekend golfers-can putt effortlessly and with confidence by integrating a new mental approach with a few simple physical routines that will keep them locked on target. Readers will also gain invaluable advice on reading greens and equipment. Illustrated throughout and filled with anecdotes about how Stockton's lessons have helped today's leading players, Unconscious Putting is a must-have golf book and a category classic-in-the-making.

China Reclaims World Power Status Sep 18 2021 Using both Chinese and Western theoretical approaches, this book analyses the strategies implemented by China for reclaiming power in the international domain. Examining domestic measures taken by China to assure its economic and social development, it also considers the strengths and weaknesses of its major international opponent, the US, and analyses their competing approaches to developing power resources and leadership dominance. It studies the foreign policies of both China and the US, first by going back to the historical origins of their ideological foundations and secondly by analysing their power building from the nineteenth century to the Trump and Xi Jinping presidencies. Finally, this book focuses on the One Belt One Road Initiative as China's response to putting an end to the 'world America made' and debates the question of whether China will emerge as a new capitalist country embedded in the liberal capitalist world system, or as an authoritarian state with a socialist market economy, able to change the rules of the international order. Providing a comparison of the two major world powers and a comprehensive overview of their relationship, this book will be of great interest to students and scholars of Chinese politics and international relations, as well as Chinese Studies more generally. able to change the rules of the international order. Be Strong (Joshua) Dec 10 2020 It can seem as though today's culture encourages weakness, not strength. And this attitude has crept into the church: Don't take a strong position of faith. Don't take a strong view of evangelism. Don't maintain strong moral values. Yet God's people are called to be soldiers, and to fight for His cause and kingdom. Based on the book of Joshua, Be Strong is an inspiring guide to pursuing a victorious life. Part of Dr. Warren W. Wiersbe's best-selling "BE" commentary series, Be Strong has now been updated with study questions and a new introduction by Ken Baugh. A respected pastor and Bible teacher, Dr. Wiersbe shares the need for strong, dedicated believers. You'll discover how to dodge defeat, pursue your purpose, and take hold of all God has in store for you.

As we look for the Holy Spirit's activity happening around us, listen for His voice, and respond in obedience, we enable others to encounter the love and power of Jesus through us. We don't bring ministry, Pastor Brian Blount says; we simply step into it. But there is still risk involved: We have to step out of the boat and walk on the water of uncertainty for the sake of the kingdom. How can we overcome the fear of failure and rejection? Offering practical insights and tools through true personal stories, Brian helps believers stand on a firm biblical foundation in order to engage in the ministry of Jesus every day. Putting security governance to the test Sep 06 2020 Recent debates in security policy have highlighted trends towards fragmentation, informalisation and privatisation in the diverse field of security policy, with its increasingly transnational security risks. In this context, the concept of security governance has risen to prominence and has inspired much valuable research. Yet, there are not only very different conceptual understandings of security governance; there is also a lack of clarity regarding its empirical manifestations and normative connotations. After a decade of research, this book therefore puts security governance to the test and scrutinises its analytical and political pitfalls and potentials. It reviews the concept of security governance and identifies central conceptual, empirical and normative challenges that need to be addressed. Moreover, this book scrutinises critical examples of security governance from EU security policy as well as in a comparative regional perspective. Case studies include EU efforts to counter piracy off the coast of Somalia, combat terrorism inside European societies and protect critical infrastructures. This book was originally published as a special issue of European Security.

Putting Liberalism in Its Place Nov 20 2021 In this wide-ranging interdisciplinary work, Paul W. Kahn argues that political order is founded not on contract but on sacrifice. Because liberalism is blind to sacrifice, it is unable to explain how the modern state has brought us to both the rule of law and the edge of nuclear annihilation. We can understand this modern condition only by recognizing that any political community, even a liberal one, is bound together by faith, love, and identity. Putting Liberalism in Its Place draws on philosophy, cultural theory, American constitutional law, religious and literary studies, and political psychology to advance political theory. It makes original contributions in all these fields. Not since Charles Taylor's The Sources of the Self has there been such an ambitious and sweeping examination of the deep structure of the modern conception of the self. Kahn shows that only when we move beyond liberalism's categories of reason and interest to a Judeo-Christian concept of love can we comprehend the modern self. Love is the foundation of a world of objective meaning, one form of which is the political community. Arguing from these insights, Kahn offers a new reading of the liberalism/communitarian debate, a genealogy of American liberalism, an exploration of the romantic and the pornographic, a new theory of the will, and a refoundation of political theory on the possibility of sacrifice. Approaching politics from the perspective of sacrifice allows us to understand the character of twentieth-century politics, which combined progress in the rule of law with massive slaughter for the state. Equally important, this work speaks to the most important political conflicts in the world today. It explains why American response to September 11 has taken the form of war, and why, for the most part, Europeans have been reluctant to follow the Americans in their pursuit of a violent, sacrificial politics. Kahn shows us that the United States has maintained a vibrant politics of modernity, while Europe is moving into a postmodern form of the political that has turned away from the idea of sacrifice. Together with its companion volume, Out of Eden, Putting Liberalism in Its Place finally answers Clifford Geertz's call for a political theology of modernity.

The Power of Enough Apr 13 2021 "Lynn Miller is an admired friend with whom I share a passion for stewardship. His deep biblical insights and his ability to share them with both lightheartedness and profundity give him a unique ability to cause people to think in new ways about life stewardship. Lynn asks the right questions and his message is one that needs to be heard--for the sake of a culture brainwashed by the gospel of materialism." --Richard Towner, Vice President, Willow Creek Association, Barrington, IL "You never quite know where you will find Lynn Miller, but, wherever he is, Lynn notices relationships. The connective tissue between people, possessions, faith, finances, Scripture, culture, labor, and leisure captures his attention, and he mines these connections for meaning and promise. It is evident that the truth of God's 'enough' clearly shapes Lynn's daily life as well as his teaching and writing." --Ed Taylor, Executive Director, Ecumenical Stewardship Center, Indianapolis, IN Lynn Miller served as stewardship theologian for MMA, Goshen, Indiana, until his retirement in 2006. He is a graduate of Wilmington (Ohio) College and Associated Mennonite Biblical Seminary, Elkhart, Indiana. Lynn is a popular conference and congregational speaker. He has been a pioneer in the study of firstfruits theology and its application to a life of faith. Putting The Boot In Feb 09 2021 Illustrious Australian football coach David O'Connor has arrived in Singapore to very little fanfare. His love for the game and desire to develop the tiny country's fledgling professional league in a big way has seen him accepting terms he's less than thrilled about—that is, if his contract even materializes. He faces the daunting task of rebuilding a team whose spirit and confidence is in shatters. He has to bridge cultural divides and finds a way to inspire his team to believe in him, the game, and importantly, themselves and each other. And slowly but surely Gombak United begins to ascend from the bottom of the league table, soon recognized as a force to be reckoned with. But at the height of his success, David is suddenly dropped from the team, marking the start of his downward spiral into drink and womanizing. His journey is fraught with difficulties, leaving him with broken ventures and financial troubles. But David is a fighter, and in a country that seems intent to break him—and jail him even—he is determined to rise again.

The Power of Putting a Label on It: Green Labels Weigh Heavier Than Contradicting Product Information for Consumers' Purchase Decisions and Post-purchase Behavior Oct 27 2019 **Instinct Putting** Nov 28 2019 Counseling golfers on a core philosophy introduced in a popular 2005 Golf Magazine cover story, a scientifically based guide to addressing the mental aspects of putting explains the importance of watching the hole rather than the ball while executing shots. 20,000 first printing.

An Ultimate Training of Putting Mar 25 2022 Putting is simple. It's rolling a small ball into a large, round hole. It always ends in success. A holed putt is the successful finish of every golf hole you play (although this success takes a little longer on some holes than on others). However, some golfers don't think putting is so simple. As the late, great Ben Hogan once said, "Putting is a different game." And he meant it! Ben thought putting was so different that it shouldn't count in one's score. He believed the person who hit the ball best with a full swing, the one who hit the most greens in regulation, or the golfer who consistently hit his shots closest to the pins should win.

Disrupt Yourself Feb 21 2022 Thinkers50 Management Thinker of 2015 Whitney Johnson wants you to consider this simple, yet powerful, idea: disruptive companies and ideas upend markets by doing something truly different—they see a need, an empty space waiting to be filled, and they dare to create something for which a market may not yet exist. As president and cofounder of Rose Park Advisors' Disruptive Innovation Fund with Clayton Christensen, Johnson used the theory of disruptive innovation to invest in publicly traded stocks and private early-stage companies. In **Disrupt Yourself**, she helps you understand how the frameworks of disruptive innovation can apply to your particular path, whether you are: a self-starter ready to make a disruptive pivot in your business a high-potential individual charting your career trajectory a manager looking to instill innovative thinking amongst your team a leader facing industry changes that make for an uncertain future We are living in an era of accelerating disruption; no one is immune. Johnson makes the compelling case that managing the S-curve waves of learning and mastery is a requisite skill for the future. If you want to be successful in unexpected ways, follow your own disruptive path. Dare to innovate. Do something astonishing. Disrupt yourself.

The Power of Being Yourself Jun 27 2022 Everyone imagines top CEOs as larger-than-life figures who do things no one else could. But deep down, a good business leader is an everyman who combines vision and high energy with the ability to connect with and learn from all types of people. In **The Power of Being Yourself**, renowned business leader Joe Plumeri offers simple yet profound guidance on how to stay positive, motivate yourself and others, and achieve success in your life and work. Plumeri's **Game Plan for Success** features eight key principles, from **Everyone Has the Same Plumbing**, in which his fish-out-of-water experience as CEO and chairman of a London-based company reveals how cultural differences can be overcome as people everywhere respond to authenticity, to **You Gotta Have Purpose!**, which explores the transformative ingredient that leads to tangible progress. And because this book is meant to be revisited and consulted whenever you need fresh inspiration or practical advice, **The Power of Being Yourself** also features a final section -- **Applying the Principles** -- imparting further guidance and checklists. By sharing his own experiences--and candidly exploring high-stakes business decisions along with many personal triumphs and tragedies--Plumeri explains that the secret to success is found not in boardroom strategy or corporate philosophy, but rather in allowing passion, purpose, and true emotions to inform your approach and guide your relationships. His book is a timely wake-up call in a world where heartless electronic communication too often takes precedence over genuine connection. Plumeri reveals that if we can live in the moment and be honest and true in our emotions, the effect carries over into how we live all facets of our lives.
