**Sisters Like Us** Oct 21 2021 The grass is always greener on your sister's side of the fence... Divorce left Harper Szymanski with a name no one can spell, a house she can't afford and a teenage daughter who's pulling away. With her fledgling virtual-assistant business, she's scrambling to maintain her overbearing mother's ridiculous Susie Homemaker standards and still pay the bills, thanks to clients like Lucas, the annoying playboy cop who claims he hangs around for Harper's fresh-baked cookies. Spending half her life in school hasn't prepared Dr. Stacey Bloom for her most daunting challenge—motherhood. She didn't inherit the nurturing gene like Harper and is in deep denial that a baby is coming. Worse, her mother will be horrified to learn that Stacey's husband plans to be a stay-at-home dad...assuming

Stacey can first find the courage to tell Mom she's already six months pregnant. Separately they may be a mess, but together Harper and Stacey can survive anything—their indomitable mother, overwhelming maternity stores and ex's weddings. *Sisters Like Us* is a delightful look at sisters, mothers and daughters in today's fast-paced world, told with Susan Mallery's trademark warmth and humor.

Instructions for Visitors Sep 19 2021 When living abroad, there are two rules to be followed: 1—If you are lucky enough to find a place you belong, you should never actually live there. And 2—Never live with a man you think you could never live without. But then, what fun would that be? In this funny, forthright, and charming memoir, Helen Stevenson chronicles her experiences as a young British expatriate living in the countryside of France. With emotional depth and lyrical sensitivity, Stevenson introduces readers to the myriad residents of the quaint hamlet known only as "le village." There's Stefan, the Maoist tennis buff, who has his own unique way of showing empathy for the masses; Gigi, the chic Parisian who uses her boutique to dress her ex-lovers' girlfriends; and Luc, the cowboy painter and part-time dentist, who, overcoming his aversion to blondes, becomes enamored of the Englishwoman who has been warmly embraced by the rural community. But her troubled love affair with this local lothario comes to

represent the poignant truth: she is still, somehow, an outsider. Luc reminds her: "Le village, c'est moi," and she can never say the same. Evoking the languid, sensual essence of Mediterranean France, *Instructions for Visitors* is a very personal revelation of the wonders and the difficulties of relocating one's home—and one's heart.

**The UberReader** May 04 2020 "Avital Ronell has put together what must be one of the most remarkable critical oeuvres of our era... Zeugmatically yoking the slang of pop culture with philosophical analysis, forcing the confrontation of high literature and technology or drug culture, Avital Ronell produces sentences that startle, irritate, illuminate. At once hilarious and refractory, her books are like no others."--Jonathan Culler, *Diacritics* For twenty years Avital Ronell has stood at the forefront of the confrontation between literary study and European philosophy. She has tirelessly investigated the impact of technology on thinking and writing, with groundbreaking work on Heidegger, dependency and drug rhetoric, intelligence and artificial intelligence, and the obsession with testing. Admired for her insights and breadth of field, she has attracted a wide readership by writing with guts, candor, and wit. Coyly alluding to Nietzsche's "gay science," *The ÜberReader* presents a solid introduction to Avital Ronell's later oeuvre. It includes at least one selection from each of her books, two classic selections from a collection of her early essays (*Finitude's Score*), previously uncollected interviews and essays, and some of her most powerful published and unpublished talks. An introduction by Diane Davis surveys

Ronell's career and the critical response to it thus far. With its combination of brevity and power, this Ronell "primer" will be immensely useful to scholars, students, and teachers throughout the humanities, but particularly to graduate and undergraduate courses in contemporary theory.

**Stupidity** Apr 02 2020 "Avital Ronell's work studies the fading empire of cognition, modulating stupidity into idiocy, puerility, and the figure of the ridiculous philosopher instituted by Kant. Investigating ignorance, dumbfoundedness, and the limits of reason, *Stupidity* probes the pervasive practice of theory-bashing and related forms of paranoid aggression. A section on prolonged and debilitating illness pushes the text to an edge of a corporeal hermeneutics, "at the limits of what the body knows and tells."--BOOK JACKET.
