Robert Ludlum's (TM) The Utopia Experiment Nov 23 2021 With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the president has been forced to establish his own clandestine group--Covert-One. It's activated only as a last resort, when the threat is on a global scale and time is running out. The Utopia Experiment When Dresner Industries unveils the Merge, a device that is destined to revolutionize the world and make the personal computer and smartphone obsolete, Covert-One operative Colonel Jon Smith is assigned to assess its military potential. He discovers that enhanced vision, real-time battlefield displays, unbreakable security, and near-perfect marksmanship are

only the beginning of a technology that will change the face of warfare forever--and one that must be kept out of the hands of America's enemies at all costs. Meanwhile, in the mountains of Afghanistan, CIA operative Randi Russell encounters an entire village of murdered Afghans--all equipped with enhanced Merge technology that even the Agency didn't know existed. As Smith and Russell delve into the circumstances surrounding the Afghans' deaths, they're quickly blocked by someone who seems to have access to the highest levels of the military--a person that even the president knows nothing about. Is the Merge really as secure as its creator claims? And what secrets about its development is the Pentagon so desperate to hide? Smith and Russell are determined to learn the truth. But they may pay for it with their lives . . .

Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

**Los Angeles International Airport Runway Incursion Studies** Jul 20 2021 Phase III of the Los Angeles International Airport Runway Incursion Studies was conducted, under an agreement with HNTB Corporation, at the NASA Ames FutureFlight Central (FFC) facility in June 2003. The objective of the study was the evaluation of a new center-taxiway concept at LAX. This study is an extension of the Phase I and Phase II studies previously conducted at FFC. This report presents results from Phase III of the study, in which a center-taxiway concept between runways 25L and 25R was simulated and evaluated. Phase III data were compared objectively against the Baseline data. Subjective evaluations by participating LAX controllers were obtained with regard to workload, efficiency, and safety criteria. To facilitate a valid comparison between Baseline and Phase III data, the same scenarios were used for Phase III that were tested during Phases I and II. This required briefing participating controllers on differences in airport and airline operations between 2001 and today. Madson, Michael D.
